

## SCIENCE

### Get Inventing

Design something using magnets which will be useful to someone you know. Explain why you have invented it and how it works with clearly labelled diagrams.

## HUMANITIES (History, Geography, RE)

### Christmas Story

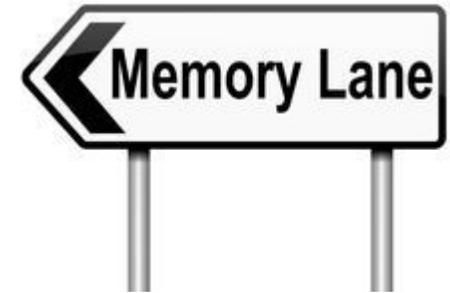

How well do you know the Christmas Story? You need to create a storyboard to retell the Christmas Story. Remember to include all the key elements.

## PE and PSHE

### How Do We Remember?

Think about times, places or people you like to remember. Are they happy things or sad things? How do you like to remember? Perhaps you could draw a picture, write about the thing you like to remember, or put your ideas in to a poem or prayer?

## ENGLISH

### Alternative Ending

Think about a story you have read recently that you really enjoyed. What would happen if the characters behaved differently or something else happened? Have a go at writing an alternative ending to the story. Be as creative as you like.

### A New Character

Think about a story or a series of stories that you really enjoy. Invent a new character that could be part of the story. How would they fit in? Would they be a 'good' character or a 'bad' one? Would they change the existing story or perhaps star in a new one? You could write their story or create a character profile.

## ELM CLASS HOMEWORK - TERM 2

Please complete one piece of homework a week in addition to:

- Daily reading at home
- Learning weekly spellings
- Times tables Rockstars

Homework should be uploaded to Seesaw and I will read and comment on your work by the end of each week. Please note that I don't always visit Seesaw on a daily basis.

## CREATIVE DEVELOPMENT (Art, Music, Design Technology)

### The 20<sup>th</sup> Century - Wartime Propaganda

Create your own WW2 'Dig for Victory' style poster. You could think about how it would persuade others to grow their own food to help with the war effort. There are some examples here

<https://www.pinterest.co.uk/lightdark/dig-for-victory/>  
(please use the internet carefully and with a trusted adult)

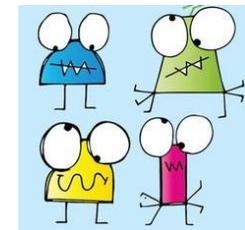

### Christmas Song

Can you come up with some words and a tune for your own Christmas Song? Perhaps you could write new verses for an existing tune like 'Jingle Bells'?

## MATHS

### Maths Sheet

Complete the weekly maths activities uploaded to Seesaw – these should consolidate what has been learnt in class the previous week (or may be pre learning for the upcoming week!)

Keep going with the TTRockstars practice too – focus on the 3x and 4x this term.
